## Consolidated Tanager Limited Financial Statements

March 31, 2024 (Unaudited)

#### 1. Business of the Company

Consolidated Tanager Limited (the "Company") is incorporated under the Business Corporation Act of Ontario with a registered address at Suite 331 1900 Bayview Avenue, Toronto, Ontario. The Company has transferred the rights its five coal leases in Hinton Alberta with payments being made on a quarterly basis until December 31, 2021. The Company receives a 1% royalty on coal sales proceeds arising from coal mined from the five leases. (There were no royalties received in the current quarter, as no coal was mined on the Company's land). The Company holds other resource properties, some of which have exploration carried out on them. The Company seeks partners to carry out further exploration or to sell or farm them out and in fact has retained the services of Exsics Exploration Limited to perform some exploration services in the Timmins/Cody township area.

#### 2. Significant Accounting Policies

Statement of Compliance with International Financial Reporting Standards ("IFRS") The Company has prepared these condensed interim financial statements in compliance with International Account Standard 34 – Interim Financial Reporting ("IAS 34").

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

#### Basis of presentation

These unaudited condensed interim financial statements have been prepared on a historical cost basis. In addition, these unaudited condensed interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

In the preparation of these unaudited condensed interim financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates. Of significance are the estimates and assumptions used in the recognition and measurement of items included in Significant accounting judgments and estimates below.

#### **Short-term investments**

Short-term investments consist of guaranteed investment certificates ("GIC's) that have maturities of one year or less, and units in money market mutual funds. Short-term investments are valued at cost plus accrued interest, which approximates their fair value.

#### Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand, and highly liquid investments with an original maturity of three months or less, which are readily convertible into a known amount of cash. As of March 31, 2024, and June 30, 2023 the Company had \$1,995,686 and \$2,517,856 respectively of cash equivalents in the form of flexible and redeemable guaranteed investment certificates.

#### Marketable securities

Marketable securities consist of equity securities over which the Company does not have control or significant influence. The equity securities are designated as Fair Value through Other comprehensive Income and measured at fair value. Unrealized gains and

Financial Statements March 31, 2024

(Unaudited)

losses due to period end revaluation to fair value are recorded as other comprehensive income or loss.

#### Revenue recognition

Revenue consists of royalties on coal sales, dividends from marketable securities and interest income on outstanding property rights proceeds receivable and on cash and cash equivalents investments, recognized on an accrual basis as earned.

#### **Provisions**

A provision is recognized when the Company has a present legal or constructive obligation because of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The Company had no material provisions as at March 31, 2024, and June 30, 2023.

#### Income taxes

Income tax expense consists of current and deferred tax expense. Current and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income.

Current tax is recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the income tax rates enacted or substantively enacted at the end of the reporting period and includes any adjustment to taxes payable in respect of previous years.

Deferred tax is recognized on any temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable earnings. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized, and the liability is settled. The effect of a change in the enacted or substantively enacted tax rates is recognized in neat earnings and comprehensive income or in equity depending on the item to which the adjustment relates.

Deferred tax assets are recognized to the extent future recovery is probable. At each reporting period end, deferred tax assets are reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the asset to be recovered.

#### Income (Loss) per share

Basic income (loss) per share is calculated using the weighted average number of common shares outstanding during the period. Stock options and warrants outstanding are not included in the computation of diluted loss per share if their inclusion would be anti-dilutive.

#### Significant accounting judgments and estimates

The preparation of these condensed interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates.

#### Segment reporting

The Company operates in a single reportable operating segment in the coal and non-ferrous mining properties.

#### 3. Short Term Investments
